💡 Core Diagnostic Findings

- 1. Listing Creation is an Onboarding Activity:** Over 57% of all completed listings are created within 24 hours of seller registration (and 42% in their very first 15-minute session). Making the onboarding flow frictionless is the single highest leverage lever to increase listings.
- 2. High Step 1 Email Gate Drop-off:** 39% of all starts abandon on Step 1 (Basics). Forcing existing users to re-enter email/OTPs and forcing new users to verify details upfront acts as a strong funnel gate.
- 3. Weekend Traffic has Low Intent:** Traffic peaks on the weekend (Saturday/Sunday represents 39% of weekly volume), but drop-offs also spike (80-87% drop-off rate, mostly on Step 1).
